Ideas That Communicate

MedTel Services
Ideas That Communicate

COMMUNICATION DELIVERED FASTER, LEANER, BETTER

The simplicity of the VCSe™ Communication Server family is further supported by the MedTel Services Arcata™ series SIP phones and endpoints. Designed with the user in mind, these phones offer executive appeal showing off sleek silver accents surrounded by a sturdy, crisp black frame and handset.

ARCATA™ VISION VIDEO PHONE

With native support for SIP network cameras and a built-in camera of its own, the Arcata Vision Video phone is ideal for face-to-face communication as well as security applications. Motion detect SIP cameras can alert relevant Vision Video phones in addition to sending a video snapshot via email to mobile phones and desktops assuring the quickest response to any situation.

BUILT-IN PoE, VPN, HEADSET JACK and DUAL ETHERNET PORTS

FULL-DUPLEX SPEAKERPHONE

BRILLIANT BACKLIGHT

PROGRAMMABLE FEATURE KEYS

INTERACTIVE SOFT KEYS

Clearly Flexible.

SIP. SIMPLIFIED.

Not only do Arcata SIP phone endpoints offer a rich feature set at an affordable price, they continue to ease the transition to, and use of, SIP communication. Capabilities such as **auto-provisioning** mean no-hassle installation. **Button tem -plates** mean quick and easy delivery of the right features to the right phones, and **built-in VPN** means accessing your communication system from *anywhere at any time*!
